(Principal)

VISION

In order to become a dynamic and prominent establishment, our goal is to be a hub of exceptional Ayurveda Education, Research, and Healthcare. Enforcing openness in all procedures to guarantee adherence to high standards and foster trust.

MISSION

To foster the growth and development of young individuals into highly skilled and morally upright professionals.

To encourage the adoption of Ayurveda within the community as a means of supporting the national health mission.

Strive to establish a model that promotes inclusivity and self-sustainability.

The essence of government

The institution is a non-governmental organisation. SSVP has a group of knowledgeable and dedicated individuals. The governing board of SSVP is responsible for formulating significant policies pertaining to the institute's Vision, Mission, and Objectives. The SSVP Governing Board is furthermore accountable for the mobilisation of financial and human resources. The governing body of SSVP closely supervises the activities and actions of different authorities to ensure compliance. This is done via regular interactions with the Principal, CDC/LMC, IQAC, as well as official and informal interactions with staff members, students, and parents. Deliberations on significant issues, reporting on occurrences, and necessary conditions are conducted with the participation of relevant individuals or committees.

The Principal leads the execution of academic and day-to-day operations, with help from the Vice Principal, Heads of Departments, and Committees on the academic side. The administrative side is overseen by the Office Superintendent.

Within the academic realm, each department engages in internal discussions to plan and implement co-curricular, extracurricular, and curricular events. These activities are organised according to a three-tiered structure in alignment with the institution's year plan, in coordination with the IQAC. This guarantees:

- 1) Optimal decentralisation and participative decision making
- 2) Streaming activities include several processes, including admission, teaching, learning assessment, examination, result preparation and analysis, and feedback collecting.
- 3) Promotes the generation, conservation, and dissemination of knowledge to foster the growth of a robust educational ecosystem characterised by excellence. The institution's organisational structure also incorporates statutory entities in compliance with university and government requirements. Efforts are made to cultivate intellectual and administrative leadership skills among staff members. A university establishes an academic calendar at the beginning of the academic year, and rigorous procedures are enforced to ensure its adherence. We welcome grievances, complaints, and limitation reports. A specialised staff carefully acknowledges them and takes necessary action in collaboration with the relevant authorities.

The ICC (Internal Complaints Committee) actively implement awareness programmes, elucidating the legal assistance and institutional support system. Several notable results of effective governance:

The institution has a hospital. The undergraduate programmes have received recognition from MUHS Nashik, CCIM, and NCISM New Delhi. The recently included physiotherapy centre, radiology unit, and SuvarnPrashan facility are additional features. Highly equipped operating theatres are provided for the departments of gynaecology, surgery, and ophthalmology.
