(President)

*Dr. Manikrao Kulkarni*  
(Principal)

## 6.4.1 Institutional strategies for mobilisation of funds and the optimal utilisation of resources

In order to ensure that the available financial resources are used in a manner that is both effective and efficient for the growth of the institution, the institute includes a process that has been clearly specified. The Institute has developed a policy paper for a variety of financial authorities, in addition to a methodology for expenditures and acquisitions.

In the case of SSVP, which is a private college, the money available for the institution come from the tuition that the students pay. The Fee Regulator authority is the one responsible for determining the fees.

Both the Administrative Officer and the Principal of the college are responsible for preparing the annual budget for the institution. This budget takes into account both recurring and non-recurring costs, and it is developed in accordance with the requirements that are presented by the different departments of the college. The LMC and college council, which were established in accordance with the Maharashtra University of Health Sciences Act 1998, are the ones with the authority to approve the budget.

The college council and the LMC are responsible for making all of the significant budgetary decisions.

The Head of the Institute and Management are responsible for ensuring that enough care is taken to guarantee that funds are available and that they are used. After receiving the permission of the Honourable Secretary, each and every one of the funds is thoroughly examined and used to the fullest extent possible. With the recommendations of an IQAC that has been properly established, purchases are made. The following types of activities make good use of the resources:

The costs associated with education.

The costs associated with research and manufacturing.

Student wellbeing and Interaction activities.

The costs associated with all of the social and cultural activities.

The expenditures made for activities related to extension and outreach. The costs of printing and stationery include.

Internet and software fees are incurred.

Payment to the speakers who were invited as guests.

Help with finances in order to participate in the Workshop. There will be Yoga Competitions, Quiz Competitions, and Seminars.

Competitions in sports, preparation for the National Service Scheme, etc.
