Description

On November 2, 2020, SSVP College of Ayurved and Research Center conducted a seminar focused on "Clinical Research." The event aimed to provide participants with a comprehensive understanding of the principles, methodologies, and challenges associated with clinical research within the context of Ayurveda and allied fields. The seminar featured expert speakers with a background in clinical research, who covered various aspects such as study design, ethical considerations, data collection, and interpretation of results. Attendees had the opportunity to gain insights into the unique challenges and opportunities present in clinical research within the field of Ayurveda. The interactive sessions allowed participants to engage in discussions, ask questions, and share experiences, fostering a dynamic and collaborative learning environment. The seminar played a crucial role in bridging the gap between theoretical knowledge and practical application in the realm of clinical research. By organizing a seminar on clinical research, SSVP College of Ayurved and Research Center demonstrated its commitment to advancing research capabilities and promoting evidence-based practices. The event contributed to enriching the academic discourse and provided a platform for participants to enhance their understanding of the intricacies involved in conducting meaningful clinical research in the context of Ayurvedic sciences.

Description	On January 27, 2020, SSVPR College of Ayurved and Research Center conducted a sensitization program focused on research methodology. The seminar aimed to introduce participants to the fundamental principles and approaches in research, fostering an understanding of the importance of methodological rigor within the academic community. The program featured knowledgeable speakers who provided insights into various aspects of research methodology, including the formulation of research questions, literature review, study design, and data analysis. Attendees had the opportunity to gain a broad understanding of the research process and its significance in contributing to advancements in Ayurveda and related fields. Interactive sessions encouraged participants to engage actively, ask questions,

and seek clarification on research-related concepts. The sensitization program played a crucial role in creating awareness and cultivating a research-oriented mindset among students and faculty, setting the stage for more in-depth exploration in future academic endeavors. By organizing this sensitization program, SSVP College of Ayurved and Research Center demonstrated a commitment to laying a strong foundation for research excellence within its academic community. The event contributed to building research literacy and encouraging a culture of inquiry and scholarly investigation within the institution.
