| Description | <p>On October 4, 2021, SSVP College of Ayurved and Research Center organized a seminar dedicated to "Literary Research," aiming to cultivate a scholarly understanding of research methodologies in the realm of literature. The event commenced with a warm welcome extended by the Principal, emphasizing the institution's commitment to fostering intellectual growth. The seminar featured a distinguished resource person, well-versed in literary research, who delivered a comprehensive presentation on effective research methodologies, critical analysis, and the integration of literary theory into academic exploration. The Principal, recognizing the significance of the seminar in promoting literary scholarship, took the opportunity to felicitate the resource person for their valuable insights and contribution to the academic community. The felicitation underscored the institution's commitment to recognizing and honoring expertise in diverse academic disciplines. Attendees actively engaged in discussions, demonstrating a keen interest in advancing their research skills within the literary domain. The seminar concluded with the distribution of certificates to participants as a token of appreciation for their active involvement. Overall, the event not only enriched the academic</p> | |

| Description | <p>On May 10, 2022, SSVP College of Ayurved and Research Center organized a seminar focusing on "Medical Statistics," aiming to equip participants with essential skills in statistical analysis within the context of medical research. The seminar addressed the growing importance of statistical methodologies in interpreting and drawing meaningful conclusions from healthcare data. Expert speakers, well-versed in the intersection of medicine and statistics, led informative sessions covering topics such as study design, data collection, and the application of statistical tools in medical research. The practical relevance of statistical analysis in clinical trials, epidemiology, and healthcare decision-making was underscored. The interactive nature of the seminar provided a platform for participants to engage in discussions, ask questions, and gain practical insights into the application of statistical techniques. The event not only enhanced the statistical literacy of attendees but also fostered a collaborative environment for interdisciplinary learning. By organizing a seminar on medical statistics, SSVP College of Ayurved and Research Center demonstrated its commitment to advancing research capabilities and promoting evidence-based practices in the medical field. The acquired knowledge in statistical methodologies is poised to</p> | |
