Best practice-1

1. Title of the practice - financial aid to the deserving students

2. Objective of the practice

- To extend financial aid to the poor students specially from the rural to save them from the discontinuation of their studies going to poverty.

- o To support financially all the deserving poor students without any discrimination of caste Creed or Gender and to promote equality among students.

the expected outcome is that the student should be able to complete their degree with good marks the beneficiaries should treat the needy with the principal of Land of helping hand without discrimination

3. The context

- o most of the students have hidden talents and innovative mind but not able to execute due to lack of resources and financial support

- o on the same context the institute stood in front to support the student by providing them with the financial aid

4. The practice

- o The institution is established in rural area to provide quality education to the student residing in rural areas and who want to pursue there graduation and post graduation studies in pharmaceutical science,

- o Most of the parents are not ready to admit their children in higher studies

due to lack of sustenance in providing financial support, so it is evident that

without financial support from external sources the youth residing and rural

area cannot hope to successfully complete their higher studies. o On this regard the institution verified the information of the students financial backwardness and decide the some to be provided as financial aid
